

VOL.: 16 - ISSUE: 2

OCTOBER 2017 - JANUARY 2018

learning experiences which further help the individual to grow into responsible and thinking individuals. Efforts at Sri Prakash are always to provide such radiant experiences. Holistic development is the most valuable educational outlook. The inculcation of passion for creative thinking amongst the students is one of the major objectives set by the School. Interactions with the most eminent personalities has been a step towards it and it served as a great platform to vent out students' passion for thinking out of the box and encourages innate creativity within them. Our students have put across some amazing achievements this year too displaying their creative thinking and aptitude skills. The teaching fraternity will surely leave no stone unturned and take the opportunity to peep into a child's thought process and his or her axiomatic creative thinking. I express my true thankfulness to Padmasri Awardee Sri T. N. Manoharan, Former President of ICAI Chairman of Canara Bank, for having ornately facilitated students to imbibe a ten-point H.O.D of Biotechnology, Krishna University, plan to succeed in life. I humbly thank Swami Machilipatnam, Dr. Sudhakar C. Agarkar, Retd.
