

VOL.: 19 - ISSUE : 1

(APRIL 2021 TO MAY 2022)

Spreading miles of smiles with a holistic vision to nurture joyful learning, we at Sri Prakash always ensure our children have inputs that lead to their achievements, happy schooling and most importantly their academic augmentation. Whether online or offline we ensured that children were and are engaged with duteous academic and co-scholastic accomplishments. Apart from providing academic finesse we believe augmenting other important skills like public speaking, STEM skills and many more.

We are truly thankful to Ms. Sanjana Kapur, Writer and Associate Editor, Amar Chitra Katha to have pooled her compendium of literary experiences for the Prakashites on the occasion of National Reading Day. We always salute Lt.Col. Ashok Kini H, SM, VSM Retd. to have spent his precious time motivating all the Prakashites on the Independence day. I sincerely thank Padma shri Dr.Y.S.Rajan (Honorary Professor, ISRO) for consenting to interact with the prakashites and clarifying their queries patiently. I am also deeply thankful to our very revered Dr. A.P.Jayaraman, Retd.Senior Nuclear Scientist, BARC, Chairman, National Centre for Science Communications & President, STEAM Academy for spending a precious and wisdom oriented interactive session with our children, I express my astute regards to the messiah of snakes Sri Kantimahanti Murthy, Conservator Practitioner, Eastern Ghats Wildlife Society and Miss.P.Shalom Teresa, Alumnus for being at the school to spread the message of wildlife conservation in the Eastern Ghats.I profusely thank

our long associate Shri B.K. A garwal - Fellow, India International Photographic Council for continually sculpting photography skills in prakashites. I am very grateful to Dr. Sanjay S .Limaye, a Planetary Scientist,U.S.A.for etching out his precious time for the prakashites. My sincere thanks to Sri Suhas B Naik Satam, General Secretary, National Centre for Science Communicators and Dr.Sudhakar C.Agarkar, Retd. Homi Bhabha Centre for Science Education for their time & efforts for us. I thank Mr. Edward Paul, Member INTACH for inaugurating the Heritage Exhibition of Srujana the INTACH Club, My Sincere thanks Sri Chandra Sekhara Sastry, CEO - Mathematics lab designer,Dr.AVL Jagannadha Rao, Rtd. Dy. Commissioner, KVS and Dean (Academics), Sri B.K.Agrawal, Fellow India International Photographic Council, I must thank earnestly Dr. D Ramaganesha Prof.of Paediatrics AMC/KGH, (Consultant Paediatrician, Sriharipuram, VSP) and Dr. Rajsekhar Batchu, Associate Medical Director, Sr.Consultant Paediatrician, Giggles by OMNI RK. for an appropriate and a very timely workshop for all the parents and children regarding precautions against Covid and specifics of vaccinations. I am very thankful to Mr.Vikram Shukla - Vice President and Head, Pfizer, Vizag to have consented to spend his precious time for the prakashites on the National Science Day. I thank Mrs. Shreedevi Sunil - Storyteller from the bottom of my heart for introducing all the children to the joy of story telling and also for edifying the parents into the art of story telling and puppeteering.

I extend my humble thanks to Mr. Rajesh U Pandya, KAI Group (Ms. Sayaka Ochida, Ms. Maladhae) for educating the prakashites about the importance of hand wash and hygiene. I thank Dr. C.V. Narasimham, Ms. Jayashree Hatangadi, INTACH Member, Retd. Principal Ramnath Secondary School, I am truly thankful to Dr. K. Srinivasa Rao - Founder and Managing Director of Indian Institute of Bio technology Pvt. Ltd. India for visiting the school and educating the prakashites. My astute and profound thanks to Prof. Raja Ganapati Pragada - Andhra Pradesh Educational Service (Lecturer, Reader, Professor In Chemistry, and Principal) for the motivational words of high advice I also thank Sri B.Ganesh, SI, Pendurthi for his motivational words.

I congratulate each and every achiever who made their mark whether it is the Class XII CBSE board examination or achievement in the IIT-JEE or X CBSE examinations and the other achievements.

Congratulations to K.Tejaswini, V & K.Srivalli Seshadri, VII, for winning first prize in Short Story Writing and Painting Competitions held at Indira Gandhi Zoological Park, on the occasion of Azadi Ka Amrit Mahotsav. CH.BHAVAGNYA, V, for winning 3rd place & First Place in Online Poster Design Contest on the topic "EARTH 2040" by THE HINDU & ARCELOR MITTAL NIPPON STEEL & on "Avoid Plastics" conducted by Department of Posts, India Hindu Young World Poster Making Competition.

-V.ASHWIK KUNDAN, X for winning All India First Prize On "Role of Digital India during Covid-19" - under Senior Category By the Hindu Young World & SATYALA SIRI PRAGNA for bagging the consolation prize on "Protecting my family from the Pandemic" under Junior category.

Kudos to Ch.Bhavagnya for winning third prize and getting selected for National Level in the State Level drawing Competition conducted on the theme of "ENERGY CONSERVATION" by NTPC & K.SRIVALLI SESHADRI, VIII, K.TEJASWINI, V RISHITH NAIDU, V, CHARVISREE N., VII for Winning consolation prizes

On behalf of the entire fraternity of Sri Prakash I express my indebtedness to all the parents for being a part of this difficult journey through out the pandemic and also for appreciating the efforts put in by all of us.

Storytelling Workshop for Prakashites with Ms. Shreedevi Sunil

Storyteller, Puppeteer
from 12th April to 15th April 2022

IMAGINATION is what it takes, when it comes to creating a whole new world... Such a mesmerizing aura was created by Mrs. Shreedevi Sunil- The Storyteller from 'Talking Turtles Storytellers'. She has conducted three marvelous workshops for students, teachers and parents as well. Her voice modulation and 'Puppetry Skills' have trapped her audience and spectators in

awe. Children had a brilliant opportunity to use some of the props and display their story telling skills. Be it Mathematics, be it Science or English- all the subject teachers learnt how to use this particular skill in their own field. Parents too took in the same essence and learnt how stories can help build a great personality in their child.

15TH AUGUST

AN EXCLUSIVE WEBINAR for PRAKASHITES
LT. COL. **ASHOK KINI H, SM, VSM RETD**
FORMER COMPTROLLER TO DR A.P.J. KALAM IN PRESIDENT'S HOUSE & FORMER ADVISOR TO MINISTER OF STATE DEFENCE

Virtual Independence Day celebrations were held on 15th August, 2021 for the Prakashites. Independence Day- Lt.Col. Ashok Kini H, SM, VSM Retd., Former Comptroller to Dr.A.P.J.Abdul Kalam in President's House and Former Advisor to Minister of State Defence addressed the Prakashites. Videos on the story of Indian Struggle and Independence were also shown to the students.

Doctor's Day- Thursday, July 1, 2021 - Virtual Doctors day celebrations by Prakashites. Doctors day is celebrated through online mode to remember the humble services of Doctors to heal the world during this pandemic and always. Children of primary classes dressed up like Doctors spoke on the importance of taking care of Health and building immunity. Children also prepared posters signifying the importance of this day.

National Mathematics Day - December 22nd, 2021: Every year, December 22 is celebrated as National Mathematics Day in India in honour of mathematical genius Srinivasa Ramanujan. The 'National Mathematics Day' was observed by organizing different motivating activities like Origami competition, Mathematical Exhibits like different angles with ice cream sticks; activities showing Pythagoras theorem using cardboards etc.. and competitions through virtual classes to pay a tribute to the great Indian Mathematician, on the occasion of his 134th birth anniversary. Students, categorised into juniors (classes 6, 7 & 8) and seniors (classes 9 & 10) participated in different activities like storytelling competition & model making and PPT competition. Students were shown a short video on Srinivasa Ramanujan and were given an opportunity to participate in the quiz based on it. Students took part in all the enriching activities and competitions with great zeal. They also showcased their creativity through their presentations and expressed their gratitude towards the great mathematician.

SRUJANA - 'The Heritage Club' of Sri Prakash Vidyaniketan, Pendurthi has conducted a Heritage Exhibition at its premises. The most relevant chief guest for the occasion Sri. Edward Paul, a famous Heritage INTACH member inaugurated the exhibition. A Spread of Historical articles collected and displayed by the students of Sri Prakash enthralled the chief guest and the parents. The oldest item of the exhibits was a 'Dagger'-300 years old; descended from the ancestors, tailing back to the kings of Vijayanagaram. An interesting and original story, more than a 100 years old, was told which was related to the sacrifice of a soldier (a great grandparent) through his age old documents. A 200 year old Torchlight, and items which are 50 to 60 years old like Pure silk sarees, Pitchers, coins, Vedic Scriptures-100 years old; manuscripts, and Trophies of great grandparents; a picture with the then Prime

Sri Prakash Vidyaniketan celebrates World Heritage Day

INTACH Member V. Edward Paul and school Director Chitturi Vasu Prakash going round the heritage exhibition at Sri Prakash School at Pendurthi in Visakhapatnam on Monday.

A heritage exhibition was conducted by members of Srujana - the heritage club of Sri Prakash Vidyaniketan, Pendurthi, on the occasion of World Heritage Day on Monday.

INTACH Member V. Edward Paul, who participated as the chief guest, inaugurated the exhibition.

The students displayed artifacts like a 300-year-old 'dagger', which belongs to the kings of Vijayanagaram,

a 200-year-old torchlight, pitchers and coins, old pictures, glassware and brassware. Mr. Paul and the school Director Chitturi Vasu Prakash interacted with the students.

Minister, Indira Gandhi, 'Air Guns' and more, were all laid with grandeur depicting their details-each one with its own tale. Each of them was excitedly unveiled into the atmosphere by Prakashites. The chief guest along with the Director, Sri Chitturi Vasu Prakash, witnessed into the depth of every historic truth of the heritage items. They interacted with the students asking them for more details and sometimes delivering their knowledge in return.

Sri. Edward Paul and Director sir appreciated the young INTACH club members for the valuable spread of the Heritage items and their dedication in the organizing of the same. Parents swarmed in to take in the history and culture of India in a Portable Museum. A grand feeling, a sense of pride and happiness accompanied the visitors while leaving the campus.

Sri Edward Paul, Member INTACH

To establish an unforgettable learning adventure for the children, Sri Prakash Vidyaniketan, has organized a scintillating summer camp at the school premises. Activities like Coding, Robotics, Fun with Mathematics, Tangrams, Creapreneurs, 3D Designing and printing, Avid Authors, Math Magic, Mysteries And puzzles, Fitness, Gardening and Culinary, Art & Camp; Craft like Dot Art, Gond Art, Stone Art, Madhubani Art, Clay Keychains & Whistles to name a few. Students who participated in Robotics came up with prototypes of many need-of-the-hour robots. Participants of Creapreneurs learnt the entrepreneurial skills by making and selling handiworks like Tie and dye T-shirts, ecofriendly, plantable seed pens, tea coasters, woollen caps etc. Students learnt to paint on jute bags making it look colourful and attractive. 3D Designing and printing participants made many prototypes based on mathematical concepts, using PLA - Poly Lamine Alloy. Under Avid Authors, A team of budding writers collaborated and came up with their maiden novel titled "The rise of Avidium", in the genre of suspense, crime thriller. The participants had immense Fun with Mathematics as they learned to create Tangrams Students also honed their skills in

painting, Gardening and Culinary classes. Origami, Basketball, Mandala Art, Western Dance, Story Telling and Rubik's Cube were thoroughly enjoyed by the children during that period. Coding was another sought after field among the students. Here they got introduced to various game development platforms - they were guided into designing simple games. They learnt To use and make code arcade and scratch game designing.

Mandala art is combined with western pictures and Lord Buddha portrayed on circular canvases. Tiny tots furbished storytelling using their modulatory voices. They crumped and jumped on some energizing songs. The 'Closing Ceremony' was a blast. It comprised of Food festival, Mathematics Puzzles, stage performances of prop oriented story telling, colourful western dance, professional TED TALKS (AI) and a power packed skit on 'Ek Bharat Shrestha Bharat', showcasing various aspects of Andhra Pradesh and Punjab on one platform. The guest of the day, Sub Inspector of police, Pendurthi, Mr. B. Ganesh appreciated the young talent and quoted that he was happy with the tradition and culture followed by Sri Prakash Vidyniketan.

Together for Tomorrow

Imparting Education is only one part of a teacher's job. The remaining cup must be filled with "Gaining Education". This happens with continuous training sessions. Teachers had a brilliant opportunity to upgrade themselves with the new challenges during the pandemic. The requirement was fulfilled by the webinars and online workshops. CBSE has spread the platter of opportunities for learning and equipping themselves with great knowledge and skill sets by completing a minimum of 52 hours of Professional Teacher training programmes. To name a few, "National Education Policy (NEP 2020)", Experiential Learning, Class room management, Life skills, 21st Century Skills, Art Integrated Learning, Ethics and Integrity, Importance of value education etc.,

CBSE Capacity Building Programs 2021/22

International Yoga Day

A Webinar by ISHA Foundation was witnessed by the students of Sri Prakash Vidyaniketan on 21.6.21. Prakashites also performed various postures of Yoga like, Vajrasana, Ardha Chandrasana, Pranayama etc.

Telugu Dinotsavam

August 29th, 2021- Prakashites celebrated Telugu Bhasha Dinotsavam virtually. Children enthusiastically participated in Role Play, Speeches on famous telugu personalities and Poems. They sang 'Maa Telugu Talliki' with a patriotic feeling and concluded the session gracefully.

Vasant Panchami

The auspicious festival of Vasant Panchami was celebrated dedicating the day and prayers to Goddess Saraswati, who is regarded as the Goddess of knowledge, music, arts, science, and technology. In order to procure the same, students of Sri Prakash Vidya Niketan also sat in the puja worshipping.

Pi Day

March 14th, 2021: Prakashites celebrated virtual Pi Day by making Pi Symbol with Eco-Friendly materials like carrots, sea shells and more. A competition for Pi word search and Pi-SUDOKU was held for different classes.

Krishnashtami

Monday, August 30, 2021: Prakashites of Pre Primary and Primary classes enthusiastically participated in the Krishnashtami celebration with great joy and brought the beauty of Brundavan to their virtual classes. Students told stories, chanted shlokas, did roleplays, shared the facts about Krishna, and also discussed the significance of Krishnashtami with their friends. It was a wonderful opportunity for the students to improve their communication skills too.

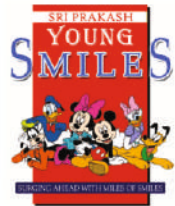

Christmas Celebrations With A Message To Recycle

'Christmas will always be as long as we stand heart to heart and hand to hand'. Christmas was celebrated online where in children participated enthusiastically. As part of the Christmas celebrations, Kindergarten, Grade 1, 2 and 3 children attended the class with the attire related to Christmas like Santa Claus, Star, Angel Christmas tree, Mary, Shepherd etc. Grade IV students decorated the cup cakes beautifully. Grade V students made Christmas trees by following the 'Best out of waste' concept, decorated and described them to the class. The children enjoyed singing Christmas carols and there was joy all over.

Sri Prakash Vidyaniketan
NCC Cadets attend
Annual Training Camp

Convocation Ceremony
CHANGEMAKERS OF THE FUTURE

'Kindergarten is the foundation of every student's life, where they learn the basics of life and start their journey. Convocation celebration for Kindergarten students was held on 26th April, 2022. Our tiny tots were very much delighted to be honoured by the chief guests **Dr.K.Srinivas Rao, Dr.B.Rajsekhar** and **Prof. Raja Ganapathi**. The guests addressed the gathering with their valuable words. There was a fantastic dance performance by our students. Overall the program was an eye feast to the spectators.

The summer camp was held at the campus this year, satiating the hunger of the children to know, learn and grow. **Juniors (classes IV to VII) :** Many activities were planned and executed in a manner in which the child observed and enjoyed doing what he learnt. **Story telling sessions** captivated the young story weavers and tellers taking inputs for polishing their skills of storytelling. Coding was another sought after field among the students. Here they got introduced to various game development platforms - they were guided into designing simple games. They learnt to use and make code arcade and scratch game designing. Special Taekwondo classes gave a boost to the trainees to learn the art further. Basketball coaching was made available to the game enthusiasts to sharpen the skills under individual guidance. The students developed

their skill of synchrony in their dance steps as they dance away to glory under the guidance of the experts.

Mathematics can be fun if you treat it the right way. Maths is nothing less than a game, a game that polishes your intelligence and boosts your concentration. The participants had immense Fun with Mathematics as they learned to create Tangrams. Using tangrams is a smart way to teach and reinforce spatial awareness. Apply concepts to actual tangram shapes as students build and construct their own design and the students thoroughly enjoyed the making of Tangrams. Relay Race - where the children are motivated to solve problems one after another in chain improved the quickness of calculations in children, Bowling Pins to get the highest score made the chil-

dren understand the calculations at each pin as they blew them. Hop Scotch your number - children are given sums to solve and the answers are provided in a grid. The fastest students to reach the grid would be declared winners. These games created high spirited participation and learning among children.

The young inventors got a viable opportunity in showcasing their inventiveness by creating their own solar lamp. Under Art & Craft the learners made clay key chains and learnt to paint on jute bags making it look colourful and attractive.

The summer camp had been a spot to be for all the cricket fans and aspiring cricket players. They were guided into the techniques of the game by the experts.

Seniors - (Classes VIII to X) : The fascination towards **Robots** and their making took wings and found reality in the workshops held during the summer camp. **Quilling** as an art was observed learnt and practically done the sessions specially planned and designed for the purpose of raising interest and curiosity in the said art. Interesting **toys** were designed and made from the **waste material**. The participants had their hands on experiments when they were guided into making of a **workable clay whistle**. Their joy knew no bounds as they blew the whistle made

by them. For those bitten by Photography and print bug, there was **3D printing** taught. Participants got involved in the activity with dropped jaws. The senior students were also engaged with polishing their mathematical skills in the most appealing way. And of course the **dance** sessions were scintillating for both the coach and the trainees. Fitness enthusiasts among the students grabbed the opportunity provided in the fitness sessions held trying to get themselves as fit as a fiddle.

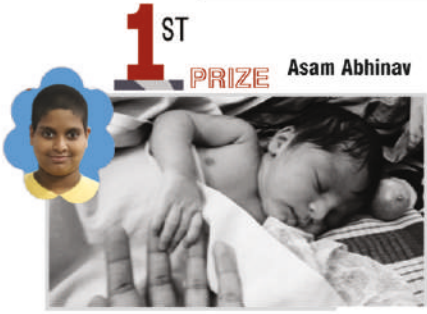

PHOTOGRAPHY is one of the skill sets that is imprinted in Prakashites. For the past 13 years, we have been celebrating 'The World Photography Day' with various themes and with highly spirited participation from all our students. The year 2021 too was no exception. Pandemic was no restriction to our elevated spirits. Prakashites participated with the same zeal and enthusiasm in 'Virtual competition - The themes being 'Kitchen Close ups', 'Street Vendors and 'Black and White Portraits'

SAVE SOIL – FOR BETTER TOMORROW

As a part of the CONSCIOUS PLANET campaign, launched by Isha Foundation, the Save Soil Movement gained global impact. The objective of the campaign being the improvement of soil quality, preventing desertification, the schools and colleges were also given a call to involve in creating the awareness of the deteriorating soil quality and the need to increase the organic content in soil in order to sustain continued cultivation of crops for the coming generations. This needs representation of global mandate. To be a part of the mandate around 1100 letters were written by our students to the honourable Prime Minister. Volunteers of Isha Foundation approached the school and made sure that the letters reached the Prime Minister's office. Every student participated in the awareness campaign standing by the slogan 'each one, reach one'

"VIKRAM SARABHAI, SCIENCE, AND 21ST CENTURY INDIANS"

12TH AUGUST

AN EXCLUSIVE WEBINAR for PRAKASHITES
PADMA SHRI DR. Y.S RAJAN

Indian Professor, Scientist & Administrator
Honorary Distinguished Professor, ISRO

SPEAKER DR. A.P.JAYARAMAN

Retired Senior Nuclear Scientist, BARC; Chairman, National Centre for Science Communicators & President, STEAM Academy

An exclusive webinar was conducted on 12, Aug on 'Vikram Sarabhai, Science and 21st century Indians' commemorating the birth anniversary of the legend Dr. Vikram Sarabhai. Padmasri.s Dr. Y S Rajan sir, earlier, a distinguished professor at ISRO, who has made great contributions to various aspects of management of science technology and innovations was present in the webinar. Shri Y S Rajan had the privilege of being associated with great personalities like Dr. Vikram Sarabhai and Dr. A. P. J Abdul Kalam during his career at ISRO. Another distinguished guest Dr. A.P. Jayaraman who has been associated with Baba Atomic Research Centre and a long associate of Sri Prakash Vidyaniketan was also present, to share and pass on the wisdom and knowledge gained to the younger generation. Speaking to the children Dr. A. P. Jayaraman said that it is a rare moment that is shared with Dr. Y. S. Rajan who has interacted with professionals of great brilliance in the field of science. He advised and motivated the students to learn to ask great questions in order to seek answers which would aid in their development. Dr. Jayaram shared his work experience with Dr. Sarabhai. It was a novel opportunity extended to the students to be virtually present in the webinar along with Dr. Y.S. Rajan.

Dr. Rajan encouraged the Prakashites to know their strengths, use their creativity and stand apart in the field of their choice. Be it animations in movies, different tempos for songs, banks, security systems, medicines and son on. He motivated the audience to grab any given opportunity, bring out self-centered ideas to fulfil a vision. He advised the students to do many important things for our country ourselves. Presently many industries in India are run by other countries leading to draining of revenue. Inspiring the children to think big both for the individual growth as well as the growth of our nations, Dr Rajan said Science is not limited to the research conducted, application of what we learnt through research is what keeps us ahead. Indulging in a lot of extracurricular activities can be helpful in learning the application of science in our daily life. According to him the best knowledge is gained not from something that is written but is gained during our work experience. His earnest advised is - Learn and spread knowledge to do the best for the nation.

ACTS OF KINDNESS ARE NEVER WASTED. THEY ALWAYS MAKE A DIFFERENCE.

Initiation of Nail-Hygiene Awareness Drive by Prakashites IN ASSOCIATION WITH Kai India, Sri Prakash Vidyaniketan distributed nail clippers in MPUP school Kapuluppada.

As a gesture of sharing and caring the students distributed sports dresses to the students of M.P.U.P.school, Kapuluppada

The kindness extended blesses the one who receives them, and they bless the giver as well. This is understood and experienced by our students as they engaged in being polite, humble and kind through different activities

at school. The kindness thoughts delivered at the assembly gave them an input to live by the meaning of the thought. The fragrance of kindness permeated in the air with a deliberate attempt to be kind - be it staff to staff or

student to student. The activities planned during the kindness month added beauty to the very meaning of being kind. The students engaged themselves joyfully in making posters, cleanliness drive under the slogan

'Clean Nature Bright Future', meditation and unified games bringing out their true kind selves out to the limelight.

'Science is a beautiful gift to humanity, we should not distort it' - A.P.J Abdul Kalam. Sri Prakash Vidyaniketan celebrated National Science Day to commemorate discovery of the 'Raman Effect', which led to Sir C.V.Raman winning the Nobel Prize on 28th February. The children prepared different models and presented and explained their Science experiments to their buddies and guests. Parents were invited to witness the experiments and projects done by the children. Science Day was celebrated to spread awareness about the importance of Science and its application in the daily life.

Celebrating Sir C. V. Raman's discovery of the groundbreaking Raman Effect

Indian Nobel Laureate Sir C V Raman

The physicist who made his motherland proud by becoming the first Indian to win the Nobel Prize for Physics "Raman Effect".
7 Nov. 1888 - 21 Nov. 1970

Mr. Vikram Shukla, Vice President & Head, Pfizer, Vizag

On the occasion of National Science day a Science workshop has been conducted by Sri. S. Krishna Sai and his team B. Srinivas and V. Sri Rama Rao, from Revathi Foundation Ramachandrapuram at Sri Prakash Vidyaniketan, Hands on Experiments on surface tension, centre of gravity, periodic table, temperature of liquids, Magnetic lines, from magic with magic bulb, fire in hand were some of the activities done by them. These activities enhanced the scientific concepts among the students.

National First Prize

Out of 58,189 entries from
children across India.

Subhash Chandra Bose was one of the most celebrated freedom fighters of India. He was a charismatic influencer of the youth and earned the epithet 'Netaji' by establishing and leading the Indian National Army (INA)

during India's struggle for independence. Although initially aligned with the Indian National Congress, he was ousted from the party due to his difference in ideology. He sought assistance from Nazi leadership in Germany and Imperial forces in Japan during the World War II, to overthrow the British from India. His sudden disappearance post 1945, led to surfacing of various theories, concerning the possibilities of his survival.

Childhood & Early Life : Netaji Subhash Chandra Bose was born on 23 January, 1897 in Cuttack (Orissa) to Janakinath Bose and Prabhavati Devi. Subhash was the ninth child among eight brothers and six sisters. His father, Janakinath Bose, was an affluent and successful lawyer in Cuttack and received the title of "Rai Bahadur". He later

became a member of the Bengal Legislative Council. Subhash Chandra Bose was a brilliant student. He passed his B.A. in Philosophy from the Presidency College in Calcutta. He was deeply influenced by Swami Vivekananda's teachings and was known for his patriotic zeal as a student. In an incident where Bose beat up his professor (E.F. Otten) for his racist remarks, brought him notoriety as a rebel-Indian in eyes of the government.

His father wanted Netaji to become a civil servant and therefore, sent him to England to appear for the Indian Civil Service Examination. Bose was placed fourth with highest marks in English. But his urge for participating in the freedom movement was intense and in April 1921, he resigned from the coveted Indian Civil Service and came back to India. In December 1921, Bose was arrested and imprisoned for organizing a boycott of the celebrations to mark the Prince of Wales' visit to India. During his stay in Berlin, he met and fell in love with Emily Schenkl, who was of Austrian origin. Bose and Emily were married in 1937 in a secret Hindu ceremony and Emily gave

birth to a daughter Anita in 1942. Shortly after the birth of their daughter, Bose left Germany in 1943 to come back to India. **Political**

paper 'Forward' and worked as the CEO of Calcutta Municipal Corporation under Das' stint as Mayor. Subhash Chandra Bose played an important role in enlightening the students, youths and labourers of Calcutta. In his fervent wait to see India as an independent, federal and republic nation, he emerged as a charismatic and firebrand youth icon. He was admired within the congress for his great ability in organization development. He served several stints in prison for

He was admired within the congress for his great ability in organization development. He served several stints in prison for

Formation of the INA : Bose vehemently opposed the Congress decision to support the British during the Second World War. With the aim to initiate a mass movement, Bose called out to Indians for their wholehearted participation. There was tremendous response to his call "Give me blood and I will give you freedom" and the British promptly imprisoned him. In jail, he declared a hunger-strike. When his health deteriorated, the authorities, fearing violent reactions, released him but put him under house-arrest. In January, 1941, Subhash made a planned escape and reached Berlin, Germany via a detour through Peshawar. Germans assured him their full support in his endeavours and he gained allegiance of Japan as well. He took a perilous journey back east and reached Japan where he assumed command over 40,000 soldiers recruited from Singapore and other south East Asian regions. He called his army the 'Indian National Army' (INA) and led the same to capture the Andaman and Nicobar islands from the British and rechristened it as Shaheed and Swaraj Islands. A provisional "Azad Hind Government" started functioning in the captured territories. The INA or the Azad Hind Fauj stared for India and crossed Burma Border, and stood on Indian soil on March 18, 1944. Unfortunately, the tide of the World War turned and the Japanese and German forces surrendered which forced him to call off further advancement.

Ideology : Bose's correspondences prove his faith in democracy in Independent India. Bose's primary ideology was always the freedom of his motherland even if meant taking help from fascists like Mussolini or Hitler.

Legacy : Netaji Subhash Chandra Bose has left deep impact on the psyche of his countrymen. His slogan, 'Jai Hind' is still used in rev-

erence to the country. The International airport in Kolkata has been named Netaji Subhash Chandra Bose International Airport to commemorate the charismatic leader.

Awards, Monuments, and Achievements : After his death, the Bharat Ratna Award, India's highest civilian honor, was given to Netaji Subhas Chandra Bose. However, it was later revoked when a PIL was filed in court challenging the award's 'posthumous' character. A monument of Netaji Subhas Chandra Bose

Netaji Subhash Chandra Bose with Gandhi stands in front of the West Bengal Legislative Assembly, and his image may also be seen on the Indian Parliament's walls.

A Few Books by him : Subhash Chandra Bose was not only a superb thinker and a charismatic leader, but he also possessed the ability to communicate with others through the pen. In this context, several of his novels were quite well-known in the public imagination at the time, presenting a few of them before you. The Indian Struggle 1920 - 1942 | Essential Writings of Netaji Subhash Chandra Bose | The Call of the Motherland | An Indian Pilgrim | Congress President | Alternative leadership... e.t.c
