SPORT FOR TOMORROW

Our Inspiration - Our Guide
Sri Ch.V.K. Narasimha Rao

In our vision 'Nurture Joyful Learning for Holistic Growth', Holistic Growth is a corresponding requirement that every individual partakes to pursue till he reaches the desired destination. Every individual goes through the process of learning and contributes to one's own evolution. In this process we at Sri Prakash inculcate strong character building processes like life skill based activities, value driven exercises, patriotic edifices with a strong sense of association underlining with persuasive aim of holistic growth for all.

In this process we are ever so thankful to all the mavens who were with us in this journey, to start with I extend my earnest thanks to **Hon'ble Kojo Sugiyama**, Deputy Consul- General of Japan and **Mrs. Deepa Gopalan Wadhwa**, Former Ambassador of India to

Japan to have graced UNDOKAI, the Indo Japanese Sports festival. My humble thanks also to **Sri K. Srinivasan**, Regional Officer, CBSE, Chennai to have presided over UNDOKAI, I am also highly humbled by the august presence of **Sri Lakshmi Narayana**, Retd. I.A.S Officer, Director, A.P. State Skill Development Corporation, **Mr. Rajesh Pandya**, Japan, **Mr. Takaaki Yoneji**, President, Japan sports communications, Japan and **Ms. Yoko Fukushima**, National Selector, BCCI **Sri M.S.K. Prasad**. I sincerely thank **Dr. Pawan G. Agrawal**, Ph.d., Mumbai Dabbawala's, International motivational speaker and Management Guru, who advised the students to have consistency in their work. I thank **Sri Srinivas Laxman**, space journalist, contributing regularly to the Times of India, shared predominantly his passion for Space Journalism.

I earnestly thank **Prof.B.V.Pattabhiram**, Counselor & Director, Indian Institute of Clinical Hypnosis & PrasanthiCounselling Clinic, for enlightening students that real power is the knowledge.

I truly thank **Sri. Vinod Kumar Daroz**, India's popular Ceramist, Member of International Academy of Ceramics, for igniting interest in ceramic art among the students and also thank **Prof. Ravi Shankar Patnaik**, Department of Fine Arts and **Prof. V. Ramesh**, Fine Arts, A.U. for their dear presence. I extend my deep thanks to 'The Australian team led by **Sri. T. Vijay Vardhan** & **Mr. Lawry Mahon** and The Mercerberg Academy, USA, team led by the mentors **Mr. Frank Rutherford** Director of Institute an ardent lover of Indian Heritage and Culture

Cultural Exchange Programme

Prakashites with Students & Faculty of Mercersburg Academy, USA

Prakashites march towards modern sciences with VIBHA - swadesi sciences

Vijnana Bharati is a science movement with Swadesi spirit for the development of Swadesi Sciences. The organizers of this movement interacted with prakashites. They entered the Guinness book of world records for conducting practical science lessons and creating largest National Building Science movement. It also believes in resilient power of Indian womanhood. Sri Jayanth Sahasrabudhe, National Organizing Secretary of Vijnana Bharati, New Delhi, Sri Vivek Pai from

Kochi and Sri Subbaraya Sasrty from Rajahmundry were also present in the interactive session. Prof. RaoTatavarty, Director and Dean of Gayatri Engineering College and Management presided over the programme. In his interaction, Sri Jayanth spoke about ancient India and Indian scientists. He quoted many examples of J.C. Bose's experiment on wireless transmitters and responded to the student's queries. Students were powered with a new outlook and vision for the upcoming world.

Dr.Pawan G.Agrawal, "Have passion and be the initiative"

Interactions are helpful to the students in changing their mind set, to set a goal and to raise their achievement and development in life. An interaction was organised with Dr. Pawan.G. Agrawal, the President Kamalabai Educational and Charitable Trust & Ph.D on Dabbawalas an International motivational

speaker and Management Guru. He advised the students to have consistency in their work. He emphasised on 100 percent execution, time management and taking responsibility with the help of a video on Dabbawala and cute video on self driven people. He said, "Identify your abilities. Do hard work and be committed to your work". He also answered the queries of the students.

Sri Prakash celebrates World Dance Day with President Awardee , Natyashree Sanjib Bhattacharya

On the occasion of World Dance Day, Sri Prakash Vidyaniketan invited Manipuri Dance Exponent, recipient of President's Awardee, Natyashree Sanjib Bhattacharya. His presence rejuvenated the spirit of amateur dancers of Sri Prakash Vidyaniketan. He mesmerized the students with his spellbinding performance. In his first performance 'Makhan Chor', he explained the children how lord Sri Krishna planned to reach the pot full of butter to eat and share with friends. He made the students realize the importance of planning and sharing through this performance. The other two spectacular performances were 'Abhinaya' and 'Krishna Rasaleela', the depiction of 'Navarasa' and 'ashtapada' respectively.

That wasn't the end, he educated the students with the history and style of the dance form in brief. He even taught them 'Brahma Tala' or the 'Akshara Tala' which involves weaving of the syllables with rhythm. While briefing the four parts of the

Manipuri Dance form, he demonstrated the 'Bhramari' and asked the students to perform the same to learn the dance step. Prakashites tried 'Bhramari' (turning) to match the Exponent. That movement excited everyone. After that, the budding dancers of Sri Prakash Vidyaniketan showcased a performance in the presence of the Dance Exponent. He praised the students for their graceful performance and urged them to open up to

their guru to learn more perfectly and to spend a quality time for learning the dance form. After his performance, the dignitary visited Sri Prakash's traditional Summer Camp through 'Vidyaratham', the chariot of education for the slum children. He distributed snacks to the children and told them the importance of 'mudras' Director, Sri Chitturi Vasu Prakash greeted the children and wished them a better life.

Prakashites unveil their creative skills with Prominent Ceramist Sri.Vinod Kumar Daroz

Sri PrakashVidyaniketan offered its students a unique and a creative workshop on ceramic art as a part of summer camp, capturing the credit of introducing this specific art at

school level in Andhra Pradesh for the first time. The aim of the work shop was to create and develop interest in ceramic art among the students. In a 10 day workshop conducted by Mr. Vinod Daroz, India's popular ceramist and a member of International Academy of Ceramics, students displayed their creative skills, applying their wild childish ideas on the pots, tiles and artifacts. A glance at the exhibits would surely surprise one. This workshop offered an exciting chance to

about 100 students to explore the effects of firing and glazing the clay. The students learnt the Raku and Obvara techniques, originated around 12th century in Europe, of making ceramic art which emerged with gorgeous colors. Students

gained an acceptable level of mastery over a number of skills including clay construction, object decoration and kiln firing. Students, availing this rich experience, prepared handmade tiles, mugs, bowls and toys. The ceramic artifacts by students were exhibited. The exhibition was inaugurated by professor Ravi Shankar Patnaik, Department of Fine Arts and Professor V.Ramesh, Fine Arts A.U. Speaking on the occasion Prof. Ravi Shankar Patnaik appreciated the school's efforts in encouraging the creative skills of the students. Prof Ramesh said that the students were fortunate to be able to interact with such an intellect and must seek advantage of such a golden opportunity. The closing ceremony of the summer camp enthralled the

gathering when Sri Vasu Prakash congratulated the participants and thanked Sri Vinod Daroz for conducting such a unique and interesting workshop.

Prakashites in a rendezvous with Srinivas Laxman a renowned space journalist the Proud Son of R.k. Laxman, Eminent Cartoonist

Prakashites had the opportunity to interact with one of the eminent personalities in the field of Space Journalism, Sri. Srinivas Laxman. who shared predominantly his passion for Space Journalism. A keen journalist, contributing regularly to the Times Of India. What

was particularly exciting was to hear about some of his memorable moments. He also shared some interesting facts about the journey from Chandrayaan to Mangalyaan. Students developed a new found respect for Space Research. After such an interaction, it wouldn't come as a surprise if some of the students decide to take Space Journalism!

Dr. B.V.Pattabhiram, "Set a goal which is Smart, Specific, Achievable, Realistic and Time Bound,"

Prakashites got a rare opportunity to interact with Professor B.V.Pattabhiram, the hypnotist, author, career guide, counselor and the Director of Indian Institute of Clinical Hypnosis and Prasanthi Counselling Clinic. He said "The real friends are parents and teachers, real power is the knowledge and Examinations are nothing but festivals. Concentrate on one subject and spend more time with family members. Treat AIDS (A- Attractions, I- Inferiority complex, D-

Dissatisfaction, S-Stress) with CURE (C- confidence, U- Understanding ,R- Repeated revision, E- Effective self talk)to face the Examinations boldly." He gave some tips to the children for dealing the examination in a stress free way. He inspired and enriched the children by quoting "Dare to dream and care to achieve, be a pioneer, have patriotism."

He also explained and made the children practice the Number Game to emphasize the concept 'practice makes every one perfect'. He advised the children to set a goal which should be smart, specific, achievable, realistic and time bound.

A summer to love.....
A summer to get energized.....
A summer to play, sing, dance and experiment.....
A summer unforgettable through the Summer Camp.....

A magic potion to cool our body and mind in the warmest season of the year, a refuge to escape and hide from scorching heat, a break from school, the best place to refine your sports skills, an opportunity to break the barriers was in our summer camp. Summer camp was designed to help kids to have new experience and grow mentally, physically and socially. Students got fun filled learning experience. In this enrichment session children explored the new ideas and cul-

tivated new interests. This helped students to learn and engage themselves in various kinds of activities. The best part of summer camp was multiple elements combined in a cohesive way to provide a holistic curriculum including different set of activities for each age group so that students of all age group get opportunity to showcase their talents or skills in their peer group. The camps' success was achieved by striking a balance between education, activities games and fun.

Around 60 children participated in the camp. This tradition started in the year 2014 with an aim to educate, empower and enrich the skills of underprivileged children. Interact Club members of Sri Prakash Vidyaniketan initiated the yeomen service to community with the motto to educate and develop their personality they offered four-fold activity plan. It was started with the traditional Indian Sanskrit sloka followed by physical education, craft work- flowers made of papers and storytelling sessions. The most exciting one was the cartoon movie section through audio-visual aids. What else does a child need in this rat-racing world than that? The children were provided with nutritious food for their health which is the basic need to survive on this earth. The members Conducted the activities in their campus itself. Sri. learning the concepts of **Colour & Seasons**

One of the biggest challenges tiny tots face at the beginning is difficulty in recognising the colours. No doubt good activities and learning environment have multiple benefits for a child's academic and emotional development. Colour days provide the opportunity to introduce colours and to explore colourful world.

School celebrated Red Day and Yellow Day, Seasons Day was celebrated to involve the tiny tots to understand and feel the warmth and chill of different seasons. With different activities in interesting way which made the learning obvious.

**NATIONAL SCIENCE DAY CELEBRATIONS - 'IT IS ALL ABOUT SCIENCE FROM SOIL TO SPACE'**

The greatest of all the experiences is the one with a spontaneous learning. Education goes on expedition when a student is keen on learning without prompting naturally. Such a learning is the real learning. On the occasion of National Science Day commemorating the birthday of Sir C.V.Raman, Students of Classes 1- 9 exhibited their

projects and demonstrated 100 plus experiments based on different topics were highly appreciated by parents. Later in the valedictory function which was graced by Dr.Pawan G.Agrawal, C.E.O Mumbai Dabbawalas the children were appreciated by the guest for their exhibits and explanation. As a part of the event competitions were conducted like the quiz, calling of innovative ideas, PowerPoint presentations and the winners were given prizes by the guest. While speaking Dr.Pawan G.Agrawal motivated the children to work for bringing a change without waiting for others and that one is never too young to achieve and bring a change. On the occasion, Director, Sri Ch.Vasu Prakash appreciated the children and congratulated all for their effort.

**GRAND SABHA - A TRUE LEARNING PLATFORM**

The meaning of the word 'Sabha' in Sanskrit is public gathering. The Sabha in our school is a cultural gathering to motivate the students towards boosting their self confidence and to eliminate stage fright. It was conducted in the month of March with a motto of participating maximum students in different level of programmes. Upper kindergarten kids had their proud moments as they were graduated to the next level. Through the patriotic event "MY INDIA-MY

PRIDE", an inspiration from the prestigious IFR, students showcased three armed forces and Kargil combat on the stage which enthralled the audience. Dance and music had brought festivity in Sabha and through story the audience journeyed to the Fairy Land. Puzzle Art was like icing on a cake. Science Fair enabled the children to explore, experience and innovate.

**ASHIRVACHAN CEREMONY**

In an emotionally charged and spectacular ceremony, the batch of Class X of Sri PrakashVidyaniketan were blessed traditionally by Director Sri Ch.Vasu Prakash, Senior Administrative Officer, Sri K.V.Manohar, Administrative Officers, Principals and teachers. The ceremony started offering prayer to goddess Saraswati, the Vidya Devi. Class IX Students formally welcomed the gathering and wished their seniors in 15 different languages. They even prepared PPT capturing glimpse of important

moments at Sri Prakash. The school choir and the western choir group entertained their seniors with formal and western songs respectively. The outgoing school captains and the captains delivered their emotional valedictory speech highlighting their experiences in the school. Director, Sri Ch. Vasu Prakash motivated the students through videos on success stories. He wished the students for a happy and prosperous life ahead.

INDO-AUSTRALIAN
CULTURAL EXCHANGE -AN OUTSTANDING INTERACTION

INDO- US
CULTURAL EXCHANGE -AN EXCELLENT LEARNING PLATFORM

"It's different cultures that make the world go around at the end of the day". The world at Sri Prakash rejuvenated with Australian delegates in an interactive session where 13 students from Victoria University shared their experiences with prakashites. In return, Prakashites showcased their skills on origami and paper folding. The beautiful shapes of paper folding such as swans, owls, cars, tables, chairs, snakes etc. impressed the delegates. It was fun to watch the Australian students learning the art with interest. Apart from teaching Origami, there was also a presentation on preparing

South-Indian delicacies. The Australian students were also introduced to the art of pottery and weaving cane baskets. A stress free learning reflected through this interactive session proved the fact that informal learning is deep rooted. The team led by Mr. Lawry Mahon and Sri.T.Vijay Vardhan, Alex Burridge, Carey White, Elise Cullen, Annah Wilson, Holly Grayhart, Kim Milne, SarhSullivan, Sharni Molone, Sonia Lopez, SoniaWilson, Stephani Buck, Tara Clancy and Tom Evens expressed their happiness after attending the cultural exchange program with the Prakashites.

Cultural exchange programs expose students to people from different cultural, religious, geographic and socio-economic backgrounds and in doing so provide the opportunity for students to develop a greater understanding of diversity. The fundamental purpose of a cultural exchange program is for students to share with and learn from others. With this aim an impressive and interesting cultural exchange programme was organised with ten students of Mercersburg Academy, U.S.A. along with their mentor Mr. Frank Rutherford who not only interacted with 100 students of the school but also had a session on the art of Quilling. Students taught them how to twirl different paper strips into beautiful shapes like swans, Flowers and Peacocks. It was amusing to watch the students of Mercersburg Academy learning the art with fun. Apart from teaching Quilling there was also a presentation on the process of preparation of the special breakfast delicacies of Andhra Pradesh like the Idli, Dosa and Vada. The energetic and stress free learning was clearly reflected through the interactive session proving the fact that learning when done informally is deep and natural. The team led by the mentors Mr. Frank Rutherford Director of Institute an ardent lover of Indian Heritage and Culture and career planner , Ms. Rachel and students Danny, Emily, Gerardo, Grant, Hazel, Jane, Javier, Morgan, Olivia & Paul expressed their happiness after attending the cultural exchange program with the Prakashites. Mrs.Jayashree Hatangadi was also present at the interaction.

Field Trips Knowledge acquired by practical experience has an everlasting impression on young minds. Field trip helps the students to explore, discover, share facts and encourage them to expand and enhance their knowledge. Students get an exciting learning experience extending out of the classroom

Home Away from Home

The hostel which houses numerous children of varied age groups is a perpetual hub of activities like birthday Celebrations, Training for M.A.D & Sports. The school strives to provide myriad experiences which are a ready amalgamation of a homely, intellectual and rational environment.

DR. VIKRAM AMBALAL SARABHAI FATHER OF INDIAN SPACE PROGRAM

Vikram Sarabhai was a man much ahead of his times. Born into a wealthy business family in India, he enjoyed a privileged childhood and the means to pursue all the education he wanted. From a young age Sarabhai developed a deep interest in science and mathematics. He was a very curious child who loved to explore life. After completing his primary education from India he moved abroad for further studies. He became obsessed with science and all that science has to offer over his course of stay in England. By the time he was back to India, he was fixated on contributing something of relevance to the country. He

Childhood & Early Life : He was born as one of the eight children of Ambalal and Sarla Devi in the city of Ahmedabad in Gujarat, India. His family was a very affluent one which managed several textile mills.

After passing the intermediate Science examination from the Gujarat College in Ahmedabad he went to England for his further studies. He enrolled at the St. John's College, University of Cambridge from where he received the Tripos in Natural Sciences in 1940.

He was the man behind the genesis of Operations Research Group (ORG) which was the first market research organisation in India.

After coming back to India he joined the Indian Institute of Science in Bangalore to carry out research on cosmic rays. This was something he undertook on the advice of the eminent scientist C.V. Raman. His first scientific paper 'Time Distribution of Cosmic Rays' was published in 1942.

He returned to Cambridge in 1945 to further his research on cosmic rays and earned his PhD for his thesis 'Cosmic ray investigations in tropical latitudes'.

Major Works : Vikram Sarabhai is remembered as the Father of the Indian Space Program for his contributions to the field of space science. He founded the Indian Space Research Organization (ISRO) which eventually became the largest government space agency in the world.

Personal Life & Legacy :

He married the celebrated classical dancer Mrinalini in 1942. His daughter Mallika and son Karthikeya too became famous personalities in their own rights.

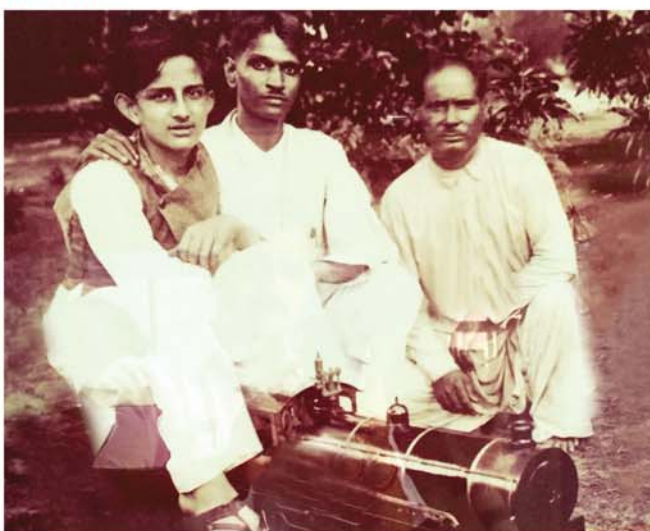

He was one of the founding members for Indian Institute of Management (IIM), Ahmedabad, in 1961 along with Kasturbhai Lalbhai. This was the second IIM to be established in the Nation.

began researching on cosmic rays at the Indian Institute of Science, Bangalore, and such was his dedication that he published his first scientific paper within two years of starting his research! He once again went to England and returned when India had become independent. Realizing the need for quality research institutions in the newly independent country, he helped to establish the Physical Research Laboratory (PRL) in Ahmedabad. He also played an instrumental role in the establishment of the Indian Space Research Organization (ISRO).

Indian Postal Stamp
Featuring Vikram Sarabhai

Career : He returned to India when the country had newly become independent. Sensing the need for better scientific facilities in the country, Sarabhai convinced the charitable trusts his family managed to establish **The Physics Research Laboratory (PRL) in Ahmedabad** in November 1947.

Young Vikram Sarabhai, at the age of 12, on the steam Locomotive Engine that he made himself with teacher, Mr. Karandikar

He was the founding director of the Indian Institute of Management (IIM), Ahmedabad which was the second IIM in the country. Along with businessman Kasturbhai Lalbhai he played a key role in setting up the institute of learning in 1961.

He was the driving force behind the setting up of the **Centre for Environmental Planning and Technology University (CEPT University) in Ahmedabad** in 1962 which offers undergraduate and postgraduate programs in disciplines like architecture, planning and technology.

In 1965, he founded the **Nehru Foundation for Development (NFD)** which is dedicated towards the promotion of basic study on the current problems of societal and individual development.

During the 1960s he also established the **Vikram A. Sarabhai Community Science Centre (VASCSC)** for promoting science and mathematics education among students and the general public. The organization aimed at stimulating interest in science subject among the masses. Sarabhai was fully supported in his ventures by Dr. Homi Bhabha who was a pioneer in the field of nuclear research in India. Bhabha helped Sarabhai in setting up the first rocket launching station at Thumba on the coast of the Arabian Sea. The inaugural flight was launched on 21st November 1963

His most significant contribution to India was the **Indian Space Research Organization (ISRO)** which he helped to establish in 1969. The major objective of the organization is to advance space technology and apply it for national benefits.

Greatmen were children one day
Children can be greatmen some day

BORN	12 August 1919 Ahmedabad, Bombay Presidency, British India
DIED	30 December 1971 (aged 52) Halcyon Castle, Kovalam in Thiruvananthapuram, Kerala, India
RESIDENCE	India
NATIONALITY	Indian
FIELDS	Physics
INSTITUTIONS	Indian Space Research Organisation Physical Research Laboratory Ambalal Sarabhai
FATHER	Sarla Devi
MOTHER	Mallika Sarabhai, Kartikeya Sarabhai
CHILDREN	Indian Space Program Indian Institute of Management Ahmedabad
Known For	

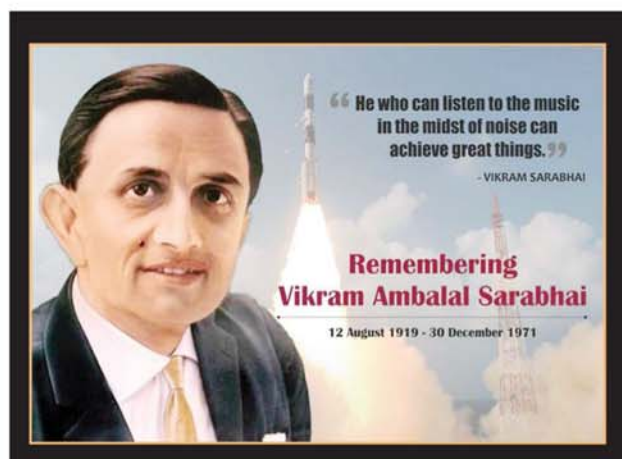

Vikram Sarabhai did not stop till he convinced the Indian government to set up Indian Space Research Organization (ISRO). It was soon after the launch of the Russian satellite Sputnik, that Vikram Sarabhai made it clear to the government that India can also be in the league of nations stepping on the moon. He was only 28 years old then

One of the Greatest Indian Who devoted entire life for the development of Science in India

Awards & Achievements : For his visionary work in the field of space science, Dr. Sarabhai was decorated with two of India's most honorable awards: The **Padma Bhushan** (1966) and the **Padma Vibhushan** (awarded posthumously in 1972) & The **Shanti Swarup Bhatnagar** (1962)
